Ipswich, Toowoomba & Hervey Bay

THE PRODUCT

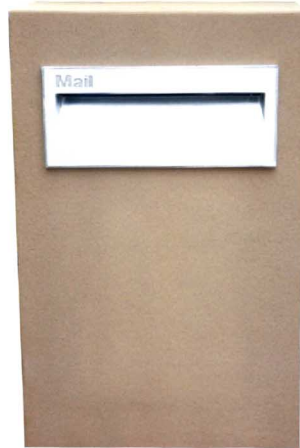

Letterboxes are manufactured using a high density lightweight core with a hard coat and sand textured finish. The application of this coating provides superior strength along with stylish modern 'rendered' aesthetics. The letterbox includes a 42mm galvanised RHS steel post for ultimate footing strength and ease of installation.

THE INSTALLATION

As our letterboxes are pre-coated in a rendered finish, it eliminates the need for tradesmen that are required for normal 'bricked up' letterboxes. Letterboxes are designed to be quickly and easily installed in a D.I.Y. manner with full Installation Instructions provided with the product. Once the letterbox is installed all you need to do is simply paint over with any exterior acrylic paint.

THE FEATURES

All letterboxes come standard with a silver mail insert which accommodates A4 size envelopes lying flat (Australia Post compliant). The mail insert is fully lockable (with 2 keys provided) ensuring the security of your mail. The supplied insert can be painted over to match your house facade colour or alternatively leave the modern look of the silver as a contrast against the letterbox colour you choose.
